

KINVET UroHerb

“Comfortable Pets, Confident Owners, Complete Care.”

How to Use KINVET UroHerb

Daily Dosage:

- **Dogs & Cats:** 1 tablet per 10 kg body weight, once daily
- Or as directed by your veterinarian

When to Administer:

- During active urinary tract infections (UTIs), crystalluria, or hematuria episodes
- As preventive care for breeds prone to urinary issues (e.g., Persian cats, Dachshunds)
- Post-recovery maintenance to prevent recurrence after antibiotic treatment

Pet Parent Practices: Do's

1. **Store Properly:** Keep the bottle sealed in a cool, dry place away from direct sunlight and moisture
2. **Ensure Consistent Dosage:** Administer the correct dosage daily for optimal results
3. **Monitor Your Pet:** Observe for improvements in urination patterns, energy levels, and overall comfort
4. **Maintain Hydration:** Ensure your pet has access to fresh water at all times to support urinary health

Farmer's Don'ts – Avoid These Mistakes:

Common Mistakes to Avoid

1. **Do Not Overdose:** Exceeding the recommended dosage won't accelerate results and may be wasteful
2. **Avoid Moisture Exposure:** Do not leave the bottle open; exposure to air and humidity can degrade the product's efficacy
3. **Don't Neglect Veterinary Advice:** Always consult your veterinarian before starting any new supplement regimen

4. **Do Not Substitute for Antibiotics:** KINVET UroHerb supports urinary health but is not a replacement for prescribed antibiotics during active infections

Pro Tip

“Integrate KINVET UroHerb into your pet's daily routine to naturally support urinary tract health, reduce the risk of infections, and promote overall well-being—ensuring your furry friend stays happy and comfortable.”
