

KINVET RespoHerb

“Easy Breathing, Happy Purring, Stronger Immunity.”

How to Use KINVET RespoHerb

Daily Dosage:

- Cats: 1 tablet per 10 kg body weight

When to Administer:

- ✓ URI Episodes – Nasal discharge, sneezing, or coughing
 - ✓ During Outbreaks – In shelters or multi-cat households
 - ✓ Post-Vaccination – To help boost immunity
 - ✓ Chronic Support – For asthma or bronchitis-prone cats
-

Pet Parent Practices: Do's

- ✓ Store Smart – Keep bottle tightly sealed in a cool, dry place
 - ✓ Serve with Care – Mix into wet food or use a dosing syringe
 - ✓ Observe Closely – Note changes in breathing, appetite, and activity
 - ✓ Use With Vet Guidance – Especially for chronic respiratory issues
-

Pet parent Practices : Don'ts

- ✗ Don't Double Dose – Stick to the recommended volume
- ✗ Avoid Exposure – Don't leave bottle in sunlight or humid areas
- ✗ Don't Skip Vet Visits – Use alongside professional care
- ✗ Not for Emergency Use Alone – Seek immediate help in acute respiratory distress
